

# Human Waste

## I Declare War

I live my life in fear  
I am human waste  
Serving a purpose is far-fetched  
We have taken advantage of it

We deserve what we get

Torch the skies black  
Iced fucking earth  
Torch the skies black  
Iced fucking earth

Death is here to meet you at your gates  
I welcome you, Tear me to shreds if you will  
Indulge in my body

I give myself to you for what we've done

I am human waste  
Weep for planet earth  
Rain down your acid tears and burn it all away

WEEP!  
WEEP!  
WEEP!

I am human waste  
Weep for planet earth  
Rain down your acid tears and burn it all away

Start over at square one (square one)

I live my life in fear  
I am human waste  
Serving A purpose is far-fetched  
We have taken advantage of it

Torch the skies black  
Iced fucking earth  
Iced fucking earth
