

Disaster Hearts

I Fight Dragons

Come back, rebound Simpler said than found Night by night, and
tear by tear Somehow, someway we all get to someday Mile by mil
e, and fear by fear

Disaster has a way of remaking our hearts Long after all the th
under and scars Days pass and bit by bit we began to restart Ou
r disaster hearts

Stronger, wiser You'll be fine they tell ya Life will heal and
love will bind Weaker, slower Keep in mind it's over Take a bre
ath and take your time

Disaster has a way of remaking our hearts Long after all the th
under and scars Days pass and bit by bit we began to restart Ou
r disaster hearts

We will be the last ones (we will be the last ones) To finally
see when we're done (to finally see when we're done) And we wil
l be the last ones To finally see when we're done

Disaster has a way of remaking our hearts Long after all the th
under and scars Days pass and bit by bit we began to restart Ou
r disaster hearts Disaster has a way of remaking our hearts...
