### I Fight Dragons

In night no one is watching with the devil eyes  
They thought we knew, they taking ever and now they come for yo  
u

One-two  
Three-four  
Five-six  
Nine-ten

No one notice when the world became to change  
To one bright we start to go, we done the planes  
Now I don't wanna be the one how doesn't live to see the end  
So I just smile and pretend

Call back your friends  
Call all your saviors  
When you get on dance  
Call and get truth your sermons to make on you

One-two  
Three-four  
Five-six  
Nine-ten

No one notice when the world became to change  
To one bright we start to go, we done the planes  
Now I don't wanna be the one how doesn't live to see the end  
So I just smile and pretend

One-two  
Three-four  
Five-six  
Nine-ten

No one notice when the world became to change  
To one bright we start to go, we done the planes  
Now I don't wanna be the one how doesn't live to see the end
