

Working

I Fight Dragons

Hey, lay low, you know That everybody has to care You see that
we All feel the same way you do

Lie to me 'cause honestly I don't believe that you believe The
lies you tried to feed to me Like keep your head down Happy isn
't free

'Cause all the boys on the morning train can see And all the gi
rls with the empty eyes agree All this working, it's not workin
g They graduated with a big ten college degree They're frustrat
ed because it's not how they thought it would be Sleeping, work
ing, it's not working for me

So I stay in my seat Try to catch eyes with those around me But
they all stare vacantly on forward So the future I can see

'Cause all the boys on the morning train can see And all the gi
rls with the empty eyes agree All this working, it's not workin
g They graduated with a big ten college degree They're frustrat
ed because it's not how they thought it would be Sleeping, work
ing, it's not working for me

How can I let this go Know only what I need to know Can I be on
ly what they tell me I should show Oh no

'Cause all the boys on the morning train can see And all the gi
rls with the empty eyes agree All this working, it's not workin
g They graduated with a big ten college degree They're frustrat
ed because it's not how they thought it would be Sleeping, work
ing, it's not working for me
