

## Beginning Of The End

### I Killed the Prom Queen

Please take me back to the start  
When we still held this close to our hearts  
I won't let it tear us apart

Please take me back to the times  
When you could see the life in my eyes  
And you knew that my love will never die

My love will never die

Please take me back to the times  
When you could see the life in my eyes  
And you knew that my love will never die
