

Music Killed Me

I'm from Barcelona

Music almost killed me now and I don't understand
Music almost took my life, things got out of hand
Music almost killed me now, I don't understand
Music almost took my life, I don't give a damn

She almost killed me now
She almost took my life
She almost killed me now
She almost took my life

I don't ever wanna come down from here to there
And I don't ever wanna slow down, oh dear, oh dear
I don't ever wanna come down from here to there
And I don't ever wanna slow down, oh dear, oh dear

But it doesn't really matter anymore
Cause you have to take some chances I suppose
And it doesn't really matter anymore
Cause you have to take some chances I suppose

Wait till tomorrow if you have to kill me, dear
Wait till tomorrow 'cause I like it down here
Wait till tomorrow if you have to kill me, dear
Wait till tomorrow 'cause I like it down here
Kind of like it down here, kind of like it down here
