Judith Rules

I See Stars

You can try to take this from us You waste your days away counting numbers I will never let this go

I won't let this go This opportunity to leave my head I'd be nothing without this We'd be nothing without this Waiting for the show I'll leave this room with far more hope Waiting for the show I'll leave this room with far more hope

I'll jump until my legs give in
I'll scream until there's nothing left to say
The only faith I ever had in me was because you were singing
Waiting for the show
I'll leave this room with far more hope

This is our life We're all kings for now And I'm wasting light This is our life We're all kings for now And I'm wasting light

I won't let this go This opportunity to leave my head I'd be nothing without this We'd be nothing without this

This is our life We're all kings for now We're all wasting light away I won't let you down

I'll jump until my legs give in I'll scream until there's nothing left to say The only faith I ever had in me was because you were singing Waiting for the show I'll leave this room with far more hope
