Murder Mitten

I See Stars

You won't see me die here!

You always say I need to get as far away as I can While I've got time to play with and any risk, I'll take it Or fade away in this suburban wasteland and watch all your plans sink right under your feet Sink right under your feet Watch all your plans sink right under your feet

Under your feet is the ground to break You only get what you take So don't just sit and watch the atrophy of it

I have stood back for way too long You are broken... You are so broken!

I can see that We may be running out of time The curtain's falling in slow motion I can feel that the sense has left your mind The curtain's falling in slow motion

Why did you go? I can't watch So quiet and peaceful where did I go wrong Say you can stay I can't look away

You won't see me die here You won't see me die here!

Now! Now! Do you hear me now? Screaming at the top of my lungs all night Now! Now! Do you hear me now? Screaming at the top of my lungs all night Why? Why? Ask me why? Go ahead and act like you... don't know why Why? Why? Ask me why? I'll scream it... you blow me away

You blow me away You blow me away

Can you give me my breath back? (4x)

Do you hear me now? Screaming at the top of my lungs all night (2x)

Do you hear me now?
