

# Save The Cheerleader, Save The World

I See Stars

The hands come from the ground (2x)  
Don't fear life  
We came and saw  
This has no meaning  
I touch the sky  
As it's burning

This bottles half way empty  
Cause your glass is half way full  
Can you please go without me  
I swear that everything's alright  
(It's not my money he owes)

And you say  
The way we go  
It's just as terrible  
I can't turn around  
YEA!  
Beware, before I allow them running away  
Can you run

O whoa o, o whoa o, o wha-ah-oh-o-ah-o

Can't stop while the rhythm is going  
Just say the first words that come along to your head  
One touch and it's already over  
I'm not ready, I'm barley sober  
I just can't forget you,  
I'd do anything to get you  
I don't want to get you,  
I just want to forget you.

We can't go back  
(And we can't go back)  
Take a deep breath  
And go for her  
And two weeks have past  
(I've haven't seen you since)  
In spreaded letters  
Just forget her

One thing remains  
Save the cheerleader,  
Save the world!
