

## Violent Bounce (People Like ¥øµ)

I See Stars

People like you are  
The reason I keep the good so close  
And here you are so impressed with yourself  
I see right through you  
I see right through you

How many people do you plan to burn?  
and all the damage left at every turn  
You watched us struggle  
And now your parched with a thirst for attention  
To fuel the fire of your self obsession  
We'll watch you crumble  
You are the scum of the world  
And we'll watch you fall

People like you are  
The reason I keep the good so close  
And here you are so impressed with yourself  
I see right through you  
And we intend to  
Let the world know the truth  
Let the world know the truth

You sit there and smile so smug in your skin  
second and third chances gone in the wind  
I lied, and I begged, I swore I would change  
What do expect of me!?  
Fuck,  
you'll never know true unity

Look around you  
Look around you  
Everyone is terrified  
One wrong move  
One wrong move  
And their dream won't survive

You said

"You better keep your fucking mouth shut I gotta closed mind and no time to lose."

Bow to the stronger element  
The truth will outweigh you  
All it took was a spark right?

People like you are  
The reason I keep the good so close  
And here you are so impressed with yourself  
I see right through you  
I see right through you  
People like you are the reason I keep the good so close

People like you are  
The reason I keep the good so close  
And here you are so impressed with yourself  
I see right through you  
And we intend to

Let the world know the truth  
Let the world know the truth

Watch your back when your out on the town tonight  
At every corner I lurk in the dark like the shadow on these very walls  
Put the man on trial  
I bet he turn colors that he's never shown.

Watch your back when your out on the down tonight  
At every corner I lurk in the dark like the shadow on these very walls

Put the man on trial  
I bet he turn colors that he's never shown.
