

# Who Am I?

## I See Stars

I'm living breathing proof (2x)

I feel it leaving me  
The earth starts to fade  
The life inside of me

I find myself doing all the wrong things for all the right reasons  
I hear the words you say loud and clear  
I just don't give a fuck

I'm living breathing proof  
That you can turn off your conscious  
I'll show you the worst of me  
You have me asking

Who am I?  
I'm a whole lot different than I look on the outside  
Let me go, take me back to the place I know  
Will I ever be the person I'm supposed to be?  
I will never let go

I'm living breathing proof (2x)

It's safe to say there are many days I live with no regrets  
How do you sleep at night?

When I'm a living nightmare

I feel it leaving me  
The life inside of me

How do you sleep at night?  
When I'm a living nightmare  
I'm a living nightmare

Who am I?  
I'm a whole lot different than I look on the outside  
Let me go, take me back to the place I know  
Will I ever be the person I'm supposed to be?  
I will never let go

I'm living breathing proof

Will I ever be the person I'm supposed to be?  
I will never let go

I'm living breathing proof

Who am I?

I'm living breathing proof.
