

## Illuminate

I the Breather

Take a stand, Maybe even a care  
Nuisance, make your way from my head

Causing all the Trial and Tribulation

Reach out to me, and let me show you my savior  
Illuminate the stars  
I've prepared a place beyond what you can imagine

We can't ever fill space with time we don't have  
It only gets better from here  
Take a stand, Maybe even a care  
Nuisance make your way from my head

Take a stand, Maybe even a care  
Let's go! Guide me in the paths  
Forefathers took before me

Try so hard to impress everyone in the future  
Nobody really cares about our past  
Oh, Brother open your eyes

I know its hard but you have to fight  
The world is a scary place  
But knowing you makes me feel so safe

Be my way, My Truth and My Light
