

## Dive

iamamiwhoami

Dive into depths unknown  
Mouth open for our water  
Salt the antidote  
Prepare to lose what matters

Ounce of common sense  
We drive ourselves across borders  
Passed the sound of sense  
Too late to swim for the surface

Salty as we're sinking faster  
Trading tears for laughter  
Down our deepest ocean  
[Background:] "Dive, dive, dive"

Shields wrap around the hurt  
Let the icy cool down the burn  
Let it probe into those veins  
Taking us to shore-less bays  
So I can bring you closer to  
Understanding all you need to follow  
You want to know [x2]

[x3:]  
Salty as we're sinking faster  
Trading tears for laughter  
Down our deepest ocean  
Leading us to nowhere  
[Background:] "Dive, dive, dive"
