

Dive

iamamiwhoami

Dive into depths unknown
Mouth open for our water
Salt the antidote
Prepare to lose what matters

Ounce of common sense
We drive ourselves across borders
Passed the sound of sense
Too late to swim for the surface

Salty as we're sinking faster
Trading tears for laughter
Down our deepest ocean
[Background:] "Dive, dive, dive"

Shields wrap around the hurt
Let the icy cool down the burn
Let it probe into those veins
Taking us to shore-less bays
So I can bring you closer to
Understanding all you need to follow
You want to know [x2]

[x3:]
Salty as we're sinking faster
Trading tears for laughter
Down our deepest ocean
Leading us to nowhere
[Background:] "Dive, dive, dive"
