All I know is spread love, smoke weed
All I know is motivate my young G's
Skip the bullshit, that's what I don't need
Haters fall down from a nosebleed
I be swagged-up nigga swagged-out
Bitch, I'm the president, I'm fin' to get a white house
Lame nigga, you a kid on time out
I got a runner round the block every time out
Lil nigga, you can get it too, get yo team straight
You can use the gang as a template
I be mixin' break with the heartbreak
I don't need a chase, drink a link straight
The only way, hay

People think I'm on the major

And we some gangchangers
Her pardon ain't no doughs, jeep mangler
All this hoes want me, now a nigga famous
That's dangerous, but you don't see me complaining
My game thick, neva lane switch
I don't got no breake wound, always on some new shit
Never what you think I'm on
Diamond in my teeth and I got my cuban
Started out the bedroom now we got a movement
We gon' change the whole game
All my niggas on boi, so plain
Run my name always in a nigga mouth
We up in the bed and make you move out
When you want a radio, I turn out
So deep, make the gamers zoom out
All these damn dummies they pursue amount
Every single shark bring a grill out
Yay, nigga
