## **The Negative Sex**

Pay no attention to obedience Their kicks and wishes fix and forgotten for my self defense We all want to fuck ourselves and rape the world So the odds of a cult will prevail And vanity, not bored, not love

Oh no, they can't leave it alone Oh no, we can't leave it alone

Because the negative sex was born into a bloodline The negative sex is powerful in our time

Show Man the mix of the alternative It's all ammunition for the gender bend and the bedroom twist They say that the fashion's just not feminist But the sweet and the turnon sits in the laps of the girls with the balls and the hits

Oh no, they can't leave it alone Oh no, we can't leave it alone

Because the negative sex was born into a bloodline The negative sex is powerful in our time The negative sex was born into a bloodline The negative sex is powerful in our time

Sex for a lifetime Sex for a lifetime Sex for a lifetime
