Caught you in a ring of fire All surround me, such a blaze Got you in a ring of fire Lift me as you say my name

Who you gonna get to bring you water When your well runs dry?
What you gonna tell your little daughter?
Is the reason that her daddy makes her cry

Caught you in a ring of fire Happy days are all ablaze Happy days in a ring of fire Lift me as you, say my name

Who you gonna get to bring you water As your well runs dry? What you gonna tell your little daughter? Is the reason that daddy makes her cry

Sayin' Jesus never died at crucifixion So, Mother Mary never suffered so much pain Masqueraders paintin' pictures, flip the scriptures Don't even know His name

I, I say, say it again, happy days are here And bells, just don't stop ringin' in the rain Happy days are all ablaze All ablaze, all ablaze

I, I say the same again, happy days are here And bells just don't stop ringin' in the rain Happy days are all ablaze
All ablaze, all ablaze

Caught you in a ring of fire Caught you in a ring of fire
