

# Shot Caller

Ian Carey

It was the first sign and even  
Together yeah we could be  
If you could hold tight onto my hand  
Forever and definitely

I need a shot caller take control of me  
Can't leave this heart undercover forever  
Ever ever ever ever ever ever ever ever

I think you just might understand  
How much you need me  
So baby don't fight it's out of your hands  
Together yeah we could be

I need a shot caller take control of me  
Can't leave this heart undercover forever (ever)  
I need a shot caller take control of me  
Can't leave this heart undercover forever (ever)

And if you just take control  
We can let it go  
If you just take control  
We just let it let it go

I need a shot caller take control of me  
Can't leave this heart undercover forever (ever)  
I need a shot caller take control of me  
Can't leave this heart undercover forever  
Ever ever ever ever ever ever ever ever

I need a shot caller take control of me  
Can't leave this heart undercover forever (ever)  
I need a shot caller take control of me  
Can't leave this heart undercover forever (ever)

I need a shot caller take control of me  
Can't leave this heart undercover forever (ever)  
I need a shot caller take control of me  
Can't leave this heart undercover forever (ever)
