

## Just Another Night

**Ian Hunter**

Oh no, the fuzz, all in a line  
My oh my, I think I'm gonna die  
And it's just another night  
It's just another night

Got a long black face; Who goes there?  
All the reefer madness put a poor kid in jail  
And it's just another night  
Yeah, it's just another night

Oh take it easy boy or it's DOA  
Chrome on my body and a lot of folks say  
That it's just another night  
Hey, It's just another night  
Oh, it's just another night on the other side of life

Head one's a saw-bones and he wrecked my chair  
Said "How'd you like to do it in a room downstairs"  
And it's just another night  
Oh, just another night

Hey now, Papa Joe, Don't you pull my hair  
All this intrigue, it gets me out of my league  
And it's just another night  
It's just another night

His old man spent a fortune just to get him in  
But baby boy grew up just as stupid as him  
And it's just another night  
It's just another night  
It's just another night on the other side of life

Just another night, hung down slow  
I don't like the hotel let me go  
Hells bells! Give me a chance!  
This rock 'n' roller don't wanna dance  
Just another night  
Just another night  
Well, it's just another night on the other side of life

I never felt so bad; Where's my shades?  
It's gonna be a long one getting crazed  
A head spoutin' noodles said, "What do you plead?"  
I said "You ain't got to touch a man to make a man bleed"

[illegible]

It's just another night (on the other side)  
It's just another night!
