

Seeing Double

Ian Hunter

Doctor, doctor, am I alright?
I keep on stayin' up - all through the night
Smokin', drinkin', watchin' T.V. 'til the light

It's been a long time since I slept
All I seem to think about is what I ain't yet
I'm seeing double

Doctor, doctor, am I in need?
Seems like there's somethin' wrong with me
Underneath this stone lies a different guy

My head says yeah - my body says no
I can't seem to get up - I can't seem to go
I'm seeing double

In the middle of my life - it's just a little strange
All those people - they're alright - if they'd stop messin' with
my brain

I remember when the world was new
Doctor, doctor, what can you do?

I'm tired of runnin' - give me something to slow down

Ain't been to bed in over a week
I can't catch up on sleep - it's playing hide 'n' seek
I'm seeing double
