

Love In Veins

Ian McCulloch

Really, really want you
Yeah I really, really need you
And I really, really got you under
My skin
In my skin, in my skin, in my skin

Early in the morning
And nearly every evening
I get those early, early warnings
Coming in, coming in, coming in

Can you feel it
Is it living
Can you touch it
Is it loving
Is it loving

Got you in my sun sun
Yeah got you in my rain
And I got you in my blood, blood
Love in veins, love in veins, love in veins
