Sliding

Ian McCulloch

If you see me sliding Say we're gonna slide together

If you see me hiding Tell me I can hide forever

Come With me now As now I run Show me how to be someone Let me fly into your sun

When my clouds are crying Say your gonna change my weather

If you hear me lying Its never when we lie together

Come

With me now As now I run Show me how to be someone Let me fly into your sun

If you see me sliding Pray that I won't slide forever

If you see me hiding Say that we can hide together

Come

With me now 'cause now I run Show me how to be someone Let me fly into your sun

Come With me now 'cause now I run Show me how to be someone Let me fly into your sun

Your sun Your sun Your sun Your sun Your sun Your sun Your sun Your sun Your sun Your sun Your sun Your sun Your sun Your sun Your sun Your sun
