

Captured In Your Dreams

Ian Thomas

Close your eyes and all the things that you knew
Places you've been and faces you've seen
Will look right back at you
Memories behind you are much closer than they seem
All around you, all the time
They're captured in your dreams
Drift away until you're floating on a sea
Get to feeling dizzy
Feeling weak around the knees
Then when you look up and the world begins to lean
Say hello to everyone, who's captured in your dreams
Ah ah ah ah ah ah ah ah
Ah ah ah ah ah ah ah ah
And while you're there if it won't take you too long
Go back and do right what you know you've done all wrong
Drift away until you're floating on a sea
Get to feeling dizzy
Feeling weak around the knees
And while you're there if it won't take you very long
Go back and do right what you know you done all wrong
Ah ah ah ah ah ah ah ah
Ah ah ah ah ah ah ah ah
Ah ah ah ah ah ah ah ah
Ah ah ah ah ah ah ah ah
Ooh ooh ooh....
Ooh ooh ooh...
