I Really Love You

Ian Thomas

You make me out a fool You think I'm funny The thing I'm trying so hard not to be And when you say to call You don't answer at all You tell your friends it's only me I.....really love you Tho' it goes nowhere You're on a ferris wheel Ride drive me crazy Tho' it brings you closer It just takes you up again Ride tho' it brings you closer Ride till it takes you up again Ride tho' it brings you closer Ride till it takes you up again I dream it's all a dream I call your name You turn around and seem to look at me The ferris wheel slows down You're back down on the ground But then you walk right past me I.....really love you Tho' it goes nowhere You're on a ferris wheel Ride drive me crazy Tho' it brings you closer It just takes you up again I.....really love you Tho' it goes nowhere You're on a ferris wheel Ride drive me crazy Tho' it brings you closer It just takes you up again Ride tho' it brings you closer Ride till it takes you up again Ride tho' it brings you closer Ride till it takes you up again De do do I really love you De do do I really love you De do do do I really love you De do do do I really love you
