## **Trapped And Scared**

**Ice Ages** 

Sadness lives by my side Laughter distorts my face I am the crystal master That lives inside my head

A maze of endless torments
The doors to nowhere lead
Forever lost, trapped and scared

Tears now drawn my eyes
Here in this lonely part of the world
Where nothing left to lose
And I am floating endlessly.

Forever to be found Surely I am certain Dead I'll be and without life Never to tell this story.
