

## Cross The Border

Icehouse

Oh oh.....So dangerous, like freedom she fades away  
The vision that chains the heart, foundations that fall apart  
Well, I know this place (east, west, points to the nation)  
(North, south, cut the connection)

I said, stealer, steal her, we cross the border  
Steal love, still life, we cross the border

And time builds the wall, the wall that is standing still  
And she breaks the spell, the spell that may hold us all  
You build stone by stone, the line that will last for so long  
But for those who dare, her secret is safe with no one  
Well, I know this place (east, west, points to the nation)  
(north, south, cut the connection)

I said, stealer, steal her, we cross the border  
Steal love, still life, we cross the border, oh oh whoa oh

Oh oh oh

I said, stealer, steal her, we cross the border, mmm  
Steal love, still life, we cross the border, oh oh whoa oh

Chk-a-chk-a.....Chk-a-chk-
