

# Mysterious Thing

Icehouse

She tells me that she has to go, she says that it's all over now

She knows how to break me, she knows that it's easy

But when the rain is coming in, she calls me on the telephone  
he says

"Where did you get to? So come on I need you"

It's a mysterious thing, well it's something I can't explain

Mysterious thing, got me under the spell again

It's a mysterious thing, don't believe what my eyes can see

Mysterious thing, strangest feeling is holding me

So give me an answer, girl, what must I do for your love?

She's gonna make you run around, she's gonna keep you hanging on

Wearing her black lace, wild-eyed and reckless

But before you throw it all away, just think of what it does to me

Why must I go on? Wishing and praying

It's a mysterious thing, well it's something I can't explain

Mysterious thing, got me under the spell again

It's a mysterious thing, don't believe what my eyes can see

Mysterious thing, strangest feeling is holding me

So give me an answer, girl, what must I do for your love?

Ooh ooh ooh ooh ooh, mmm, mmm, mmm, mmm

It's a...It's a...It's a...mysterious thing

Give me an answer, girl, what must I do for your love? Mmm, mmm

It's a mysterious thing, well it's something I can't explain

Mysterious thing, she's got me under the spell...under the spell

It's a...It's a...It's a...

Don't believe what my...Believe what my...Believe what my eyes

Mysterious thing, well it's something I can't explain, no, no

It's a mysterious thing, heading under the spell...under the spell

Mysterious thing
