

On My Mind

Icehouse

Out on the high-way
Where does it go?
Don't think I really care now
And I just know
I don't need you now
Does it matter
I'm going nowhere

Well I said to myself
I got to leave her
Far behind but
But now I wonder,
It's all very wrong
You're always on my mind, yeah

Night and day
Mile after mile
With only the time between us.
'Cause it was something
I had to do
You've got to take some chances

You know me girl, know me too well
You know it's so easy to run, but
Something reminds me wherever I go
I could never hide here, but

Oh no, once again
I cannot forget when you're
On my mind

Got to keep on
No turning back
Already know the answers

I was a loser
Right from the start
Got to take the chance, yeah

Makes no difference
No difference at all
Every time it's just the same
Follow me here, in a
Matter of time
Before we meet again but

Oh no, on my mind, my mind, yeah
I could never hide here, but

My mind, ohh...
