

# Shutdown

Icehouse

Well, I heard the news  
Get it down, get it down  
In black and white  
Sensation fills  
The headlines  
Coast to coast

And with a single step  
You make the move  
Standing face to face  
Standing face to face  
And when you know  
There's nothing left to loose  
You got to make the choice  
Make the choice  
Make the choice  
Ooo

And you're shot down  
Shot down  
Shot down  
Shot down  
Ooo

Gone for answers there  
The assassin eyes  
Can see the waste  
Inside the criminal mind  
Behind the open doors  
And empty space

You're shaking hands  
You hold the line  
You hold the line  
You hold the line  
And any way you turn  
You're still the same  
You got to run  
You got to run  
You got to run  
Ooo
