

# Stay Close Tonight

Icehouse

Now as the day is closing  
Hold every moment  
It may slip through your hands

Evening falls so slowly  
So something warm as only  
Summer nights can

Every sound that you're hearing  
Every smile that you catch  
Is somehow lost in the crowd

And I know it's not easy  
Oh girl you know me  
There's no need to go now

All those tears you've wasted  
When all the while  
Everything was alright

So don't you be so sad now  
You know that we can  
Make it work out

When the moon and sun finds you  
Well you can turn  
To brand new day

All the love that I give you  
Take all I have  
No one can steal it away

Tonight, tonight  
Stay close tonight  
Hold on, hold on  
Stay close tonight

You and I belong here  
Two of a kind together  
Day after day

Outside the night is warm  
Just close you eyes now  
So come on, don't you cry

Oh tonight somehow special  
I don't know how to tell you  
The way that I feel

We could stay here forever  
Never come down  
Won't you say that you will
