

# This Time

Icehouse

Hear me crying, pushing back, lost and lonely & I know it so very well  
Spending hours by the river, walking through the still of night  
Oh was it here that I saw you?  
Way downtown there's a promise of something  
In the lights on the avenue  
As he turned the corner maybe just a step away  
There's no mistake when you find it

This time it feels so right, yes I know it, this time I can be so very sure  
Oh yeah, there's something good lasts forever  
This time, now she's so down in my mind  
Oh this time...Mmm-hmmm...This time...Oh ho, this time...Mmm-hmm

Well they say love is blind but I tell you  
There's one thing that I'm certain of  
Someone very special just as night has come my way  
And I believe we can make it

This time it feels so right, yes I know it, this time I can be so very sure  
Oh yeah, there's something good lasts forever  
This time, now she's so down in my mind  
Oh this time...Oh yeah...This time...Mmm-hmmm  
This time...Oh oh yeah, yeah we're fine, this time, woo, mmm-hmm

This time it feels so right, yes I know it  
This time now she's so down in my mind, mmm  
Oh this time, there's something should last forever  
This time, now she's so down in my mind  
Oh this time, that something good last forever  
This time, now she's so down in my mind  
This time, it feels so right, yes I know it, this time...
