Feels so real, can't see it clear Right in the path of this mind Anywhere, anytime Ability to make me see

We count every single second

Just waiting for a day

Where we all wake up, just to fade away

No use in leaning back and let it head our way

'Cause we'll all wake up, just to fade away

Touch the screen , plug me in Just press the key, velocity Record my life, design my fear That's why I brought you here To make me care

We count every single second

Just waiting for a day

Where we all wake up, just to fade away

No use in leaning back and let it head our way

'Cause we'll all wake up, just to fade away

No use in leaning back and let it head our way

'Cause we'll all wake up, just to fade away

Remove the shades it's not like it seems
Fatality, go with your dreams
Hypnotize, interfere..
That's why I brought you here, to make me care

We count every single second

Just waiting for a day

Where we all wake up, just to fade away

No use in leaning back and let it head our way

'Cause we'll all wake up, just to fade away
