Icons of Filth

Realise death 'cos death is real  
Or it'll be too late  
If you don't fight this death  
This death you create  
As the fireball expands & begins to rise  
As the fireball expands & begins to rise  
Our moulded stupidity horribly seen through burnt out  
eyes  
As the fireball expands & begins to rise  
A nuclear holocaust  
A sight for sore eyes  
See the children's eyes, hear the peoples cries  
As the fireball expands & begins to rise
