

# One Second To Midnight

Icons of Filth

The world's in torment  
Propaganda reigns  
To keep us quiet 'til the fallout rains  
Well I ain't gonna shut my trap  
'Cos my life's my life & I'm shouting back  
The world's an asylum  
"We've got the most weapons"  
Said the eagle to the bear  
"Well ours are bigger, so there"  
Said bear  
"Well, let's have a war then we'll see who's best"  
Simple, light, heat, blast, radiation, death  
The world's an asylum

(Chorus) The world's an asylum & Im sitting in it's  
cell  
Don't feel sorry for me  
'Cos you are as well  
Who are these people to rule us & spurn us?  
Who are these people to ridicule then burn us?  
Its their personal battle & they threaten mankind  
Light, heat, blast, leave me blind  
The world's an asylum  
They'd never stop to think how we feel  
They'd bloody our shit & vomit & make our skins  
peel & turn our statures into hideous things  
No thanks to them & their blindness  
The death bells ring  
The world's an asylum

(Chorus)

Doomsday calls  
& its.....  
One second to midnight  
(Midnight)
