

Power For Power

Icons of Filth

They'd destroy this world they treat as theirs but say is
ours
Destroy us with their wars & nuclear power
Fool us with their lies about radiation
Fool themselves they'll be the remainder of the nation
They won't just give up their atomic shit
They just act bland
Stand up & argue
Make your stand
You're better active today
Than radioactive tomorrow
They'd destroy this world they treat as theirs but say is
ours
They need nukes for profit & power
Fight back
Don't cower
Our victory in reality means facing it, not running from
it
They won't give up their dangerous death games
They just act bland
Its up to us to make a stand
Stand up & argue
Make your stand
They need nukes for profit & power
Fight back
Don't cower
One form of power for another form of power
Power for power
