

# They've Taken Everything

Icons of Filth

I've got a name & I've been given a number  
Been pushed to the ground  
So I'm going under  
Don't want to live from day to day on mere pittance  
They've taken my life & given me an existence

(Chorus) Taken life & given existence  
You take my life  
You couldn't take anymore

Could live in peace  
But they wont let us  
Could live with freedom  
But they just can't see  
Our days are numbered  
But they don't have to be  
They've taken everything - now they'd kill us

(Chorus)  
Raped of everything apart from our dignity  
We stand not alone in our strive for equality  
As resistance grows & your orders are refused  
Take a look around  
Used, abused, unamused  
(Chorus)

Let's think of a new way
