

Cherry Red

Ida Maria

I've been such a good girl living in a bad world feel like I could use a gun You've been all around town living it up, shooting down Time is up you'd better run, run to my house tonight, comb your hair like Elvis Presley Put on those blue suede shoes and your leather jacket

I'm going to be your girl tonight, I'm going to make you apple pie I'm going to wear my cherry red, I'm going to give you lots of I'm going to be your Stepford wife, you can cut me like a knife I'm going to wear my cherry red, I'm going to give you lots of room in my bed

Meet me at the riverboat where all the freaks go Round to the back tonight down in the casino Where everyone that we know is blowing on the young cock fights They say we're the mean ones run us out like clean ones Put on those blue suede shoes and your leather jacket

I'm going to be your girl tonight, I'm going to make you apple pie I'm going to wear my cherry red, I'm going to give you lots of I'm going to be your Stepford wife, you can cut me like a knife I'm going to wear my cherry red, I'm going to give you lots of
