

Quite Nice People

Ida Maria

How come I'm so afraid of people? Most people are quite nice people
How come I'm so in love with people? Most people are quite stupid people

Maybe I'm afraid someone will see right through me Cause I see right through you
Maybe I'm afraid someone will see right through me Cause I see right through you

You're just as terrified as I am Terrified that someone will confirm that you suck
Terrified that someone will tell someone that you're just a waste of time
Terrified that someone will tell someone that you're not worth the dirt under your shoes

Maybe I'm afraid someone will see right through me Cause I see right through you

You can be my friend and we can pretend We can point fingers and we can offend

Maybe I'm afraid someone will see right through me Cause I see right through you
Maybe I'm afraid someone will see right through me Cause I see right through you
