

We Are Young

Ida Maria

There is a tree
In the shadow we can be
Drink a beer ah, or maybe two
Later on I have to kiss you,
Kiss you,
Kiss you
You know that it happens
We grow old
You know that it happens
We grow cold
You now that it happens
But not today
'Cause we are young,
We are young,
We are young
That man over there
Him with the gray hair
That's us soon
Will you love me then?
Oh, don't you worry
Because tonight we'll party, party
You know that it happens
We grow old
You know that it happens
We grow cold
You know that it happens
But not today
'Cause we are young, we are young
Oh, for heaven's sake
Whisper in my ear
That you feel as precious
Oh, so precious
Oh, for heaven's sake
Shout into my face
That you feel as blind, oh so blind
I don't wanna see
I just wanna feel
I don't wanna see
I just wanna feel
You know that it happens
We grow old
You know that it happens
We grow cold
You know that it happens
But not today
'Cause we are young
We are young
We are young
