

Where Ever You Go

Ida Maria

I, it's possible I
Have gone too far when it comes to you
I can't wait for the day
When all the bad things I just saw come crashing in
And all I do is love you

Time it's possible time
Could be my soldier and my king and a war for you
Words, could bring you down
And put your heart right in my hearts where I wanted too

Then when everything is changed
When alls forgotten foolery and you are mine entirely
And stars could get away
No matter how far away deep down I gotta say
God knows I'm lost
And all I do is love you

Say now say how could it be
When it comes to you and me
What is left for me to do
Now it's all just up to you
Maybe that was all your plan
And I'm just part of something else
So what is left for me to do
Now it's all just up to you

It's possible I, have gone too far when it comes to you
