

# A Film for the Future

Idlewild

Say!

This is a film about the future, it is the future of your life  
You think it's certain, but nothing is certain  
No nothing is certain, no nothing is certain, no!

I know what you think, you think this film is about you  
It isn't about you, it isn't about you  
I know what you think, you think this film is about you  
I know what you think, you think this film is about you

I never realised at this time before now  
It's clear to see that you are the leader now  
You're just following a lost leader now  
Following a lost leader now

This is a film about the future, it is the future of your life  
Which you think is certain, but nothing is certain  
No nothing is certain, no nothing is certain, no!

I know what you think, you think this film is about you  
It isn't about you, it isn't about you  
I know what you think, you think this film is about you  
I know what you think, you think this film is about you

Say, say
