

# Everything (As It Moves)

Idlewild

The first time I saw the moon  
I cursed the sun  
As I watched it shine  
I watched it burn a hole  
I watched it burn a hole

Every time I curse the moon  
I curse the sun  
As I watched it burn  
As I watched it turn away  
I don't have to turn away

Everything, as it moves  
As it moves  
I watch it turn right into gold  
It turns right into gold  
And you said everything  
As it moves  
As it moves me  
It turns right into gold  
And yes it turns right into gold

And I cursed the sun  
As the moon undarkens the sky  
Your heart  
Is beating in your palm  
It's beating in the palms of your hand

And if my brothers  
And my sisters  
Are in the air when the moonlight twists  
I'll board the ship  
But only a ship that sails with no destination

Everything, as it moves  
As it moves  
I watch it turn right into gold  
It turns right into gold  
And you said everything  
As it moves  
As it moves me  
It turns right into gold  
Yes it turns right into gold

And the sand it turns to rust  
Which turns to rain, oh  
Hero cries your name, oh  
Hero cries your name

And the sand it turns to rust  
It's turned to rain oh  
Hero cries your name, oh  
Hero cries your name

Everything, as it moves  
As it moves  
I watch it turn right into gold

It turns right into gold  
And you said everything  
As it moves  
As it moves I watch it turn right into gold  
It turns right into gold
