

## I Never Wanted

Idlewild

I created myself to be on my own  
But I didn't expect to be alone  
Did you create yourself to be on your own?  
These are the reasons things should be unknown

The days won't let you know  
Days won't let you know

That all I never wanted was to be there with you  
All I ever wanted to know anywhere with you

No one creates themselves unless they try to  
Shut up the caution that made them lie to  
All this talk but no one will tell me  
Where and when I need to go

The days won't let you know  
Days won't let you know

That all I never wanted was to be there with you  
All I ever wanted to know anywhere with you

There is no reason, there is no reason, there is no reason  
For that now  
There is no reason, there is no reason, there is no reason  
For that

All I never wanted was to be there with you  
All I ever wanted to know anywhere with you  
(It's with you so)  
All I never wanted was to be there with you  
All I ever wanted to know anywhere  
Ever wanted to know anywhere with you
