

I Want a Warning

Idlewild

History is made not repeated,
and you hide behind words that make you feel needed,
and what you read in those books made you so conceited,
so in order for love to be true,
my dreams will have to,
become my only rules,

I want a warning,
I want a warning,
I want something more than a warning,

I've been warned about you,
I'll see through all your promises and warnings,

I want a warning,
I want a warning,
I want something more than a warning,

I've been warned about you,
I'll see through all your promises and warnings,

Wake me up on into a world outdated,
and the older you get the more you see jaded,
as you search for the quotes to make you seem complicated,
so in order for love to be true,
even my nightmares,
become my only rules,

I want a warning,
I want a warning,
I want something more than a warning,

I've been warned about you,
I'll see through all your promises and warnings,

I want a warning,
I want a warning,
I want something more than a warning,

I've been warned about you,
I've seen through every promise is a warning

I want a warning,
I want a warning,
I want something more than a warning,
I've been warned about you,
I've seen through all your promises and warnings,

I want a warning,
I want a warning,
I want something more than a warning,

I've been warned about you,
I'll seen through for the promise and warning
