

In Remote Part/Scottish Fiction

Idlewild

In the beginning, there were answers
Then they came along and changed
All these questions and their answers seem to change

So I'll wait until I find the remote part of your heart
Nowhere else will let us choose a comfortable start

We stop in every passing place
To watch the world move faster than we do
Watch it pass with our eyes closed the way we usually choose to

So I'll wait until I find the remote part of your heart
When no where else will let us choose a comfortable start
And even if the breath between us smells of alcohol
Call it confusion in the best way possible

It isn't in the mirror, it isn't on the page
It's a red hearted vibration
Pushing through the walls of dark imagination
Finding no equation
There's a red road rage,
But it's not road rage
It's asylum seekers engulfed by a grudge

Scottish friction, Scottish fiction

It isn't in the castle, it isn't in the mist
It's a calling of the waters as they break to show
The new black death with reactors aglow
Do you think your security will keep you in purity
You will not shake us off
