

# Anthem For The Unemployable

If Hope Dies

This is what we are  
This is what we've become  
Semi-conscious parts  
Of a highly refined system

We are the wires  
Part of this great machine  
Programmed for other's purpose  
Harnessed for others greed

Your free time is no longer free  
Spend each moment trying to make ends meet  
This world moves too fast to stay ahead  
Forever falling behind until we're dead  
Until we're dead

[Chorus:]

Our lives are worth more than mere numbers  
We must demand more for our contributions  
Object to living in quiet desperation  
This is a call for change and rebellion

This world moves too fast to stay ahead  
Forever falling behind until we're dead  
Until we're dead

[Chorus]

This is a system in need of some disruption  
This is a system in need of some disruption

[Chorus]
