Last night, we got married in a taxi
I swear I loved you, yes I love you like there's no tomorrow
And Iv got no time, for second thoughts now
We got tonight and then I have to go.

(D.R.U.G.S.)

I know you want it So why prolong it? Perfect time right now Gimme that look, I'm a hop up on it

Iggy in that zone
And we all alone
Wotchu "waiting on
Lot of woman back here, how bad you want it?

Back bone, back on, gonna back that to my back bone
Back strong, back back back my apple, not no iPhone
Backseat, that's our horny ecstasy, popping gon' already see
So there we be, we feel it, yea I'm telling he

Give it to him down in the parking lot
That's true love, that's true love
Give it to him down in the parking lot
That's true him, that's true love
Give it to him down in the parking lot
That's true love, that's true love
Give it to him down in the parking lot
In the backseat, in the backseat of the car"

Here we go, up and down to the beat Never caring if they peep 'cause the windows fog Gotta get it when I get it, get it right, get it good Get it good while it's good, it's the shit for all

I don't really do this with all But the way you touch me, my dress come off Drop get you rocking then the top come off And my top come off then we bring it hard

Back bone, back on, gonna back that to my back bone Back strong, back back back my apple, not no iPhone Backseat, that's our horny ecstasy, popping gon' already see So there we be, we feel it, yea I'm telling he

Give it to him down in the parking lot
That's true love, that's true love
Give it to him down in the parking lot
That's true him, that's true love
Give it to him down in the parking lot
That's true love, that's true love
Give it to him down in the parking lot
In the backseat, in the backseat of the car

Back gone Can't wait to get that home I want that (backseat love) I want that (backseat love)
