Pop my clip and click clack  
Pull up, push your shit back  
Ain't got no time for chit chat  
Just holla if you need that  
Ain't 'bout dollars, get no text back  
Packs, you know I flip that  
Already had my setbacks  
I pull up with the big bag

I pull up with the big bag, big bag  
I pull up with the big bag, big bag  
Pull up with the big bag, big bag  
I pull up with the big bag, big bag

I-G-G, I need that big bag  
That broke shit, I'm not with that  
Since y'all love lettin' y'all lips flap  
Go tell 'em that that bitch back  
This money still comin' fast  
So quick, Ben Frank got whiplash  
These diamonds in my necklace  
Watch and bracelet look like chipped glass  
Who playin' with your bitch ass?  
That's smoke for sure you get that  
This new Range it just sprint pass  
I'm crazy with my rich ass  
We not the same, that's big facts  
This pussy should be gift wrap  
Then I get so much paper, sometimes I feel like I print that

Karma brought the big bag  
Now all you bitches big mad  
Just 'cause I went and got cash  
I been there and I done that  
It's 20 bands, yeah, run that  
My jewels hit like "pat, pat"  
You got check, then gon' head, cut that  
Drip and dividends, I'm 'bout that  
Chanel shoes sold out, can't cop that  
So you bitches can't copycat

Runnin' through a new batch  
Fendi, I done did that  
Chanel runners like kick backs  
My money gun got kick back  
High with some jetlag  
I've been runnin' up big bags  
It's gon' come back, so I spend that  
Two bags from Goyard cost me 10 racks
