

Perforation Problems

Iggy Pop

I got a secret you can live and learn
I got a secret you can live and learn
You don 't know me but I burn
You don 't know me but I burn

Deep in your gut you know
The right way out
Deep in your gut you know
Not like those guys who mess around
Not like those guys who fake it, now
Perforation problems not all right
Hanging on a needle out of spite
Perforation problems no one home
Stumbling like a dirty slave
In anger

I got a worm down in my troubled soul
I got a worm down in my troubled soul
Now I 'm all right but there's still holes
Now I 'm all right but there's still holes

Every time I think it was my last
Every time I hoped it was my last
I watched my future become my past
I watched my future become my past
Perforation problems not all right

Hanging on a needle outta fright
Perforation problems no one home
Stumbling like a dirty slave
In anger

I still get angry when I look back
I still get angry when I look back
When I look ahead my bags are packed
Perforation problems not all right
Hanging on a needle out of fright
Perforation problems no one home
Stumbling like a dirty slave

Perforation problems not all right
Perforation problems every night
Perforation problems no one home
Stumbling like a dirty slave
Perforation problems
Fright
