

## Far away

Ignite

Well we've been running  
Trying to get away  
From the sigh of times  
When you've grown up on silent shores  
There's so many people that you ignore  
Grasping outwards  
Trying to reach our goals  
We're so far away  
Grasping in vein  
Hoping for a change  
We're so far away  
Well we've been searching  
For some sort of truth  
To make sense of all the lies  
No we're not that naive  
Because we've made  
We've made our own objections  
Grasping outwards  
Trying to grab out goals  
We're so far away  
Grasping in vein  
Hoping for a change  
We're so far away  
We know  
We are important  
We know  
We're not just kids  
We know  
We're far away from home  
We know  
We're out of time  
We're so far away  
We're so far away
